Spiritual Response Therapy (SRT)

Basic and Advanced Online Classes Curriculum and Schedule for September 2017

Spiritual Response Therapy (SRT) is a system to clear the soul's path by researching the soul records to release discordant energies accumulated over lifetimes. SRT provides an exacting, powerful and accurate way of changing the landscape of our inner and outer lives, enabling us to live more freely and fully.

There are four main aspects of learning Spiritual Response Therapy

1. Understanding the levels and layers of spiritual reality and the expansion process of the universal consciousness.
2. Establishing and maintaining the connections with the High Self and higher levels of consciousness and working with these levels to clear blocks.
3. Learning the art of asking. SRT works on the simple principle 'Ask and You Shall Receive'. Researching what to ask for and being precise and thorough leads to better results.
4. Learning to operate at the level of the New Paradigm at Radiant Love.

A meticulous step by step protocol has been developed by Robert Detzler based on a set of charts that he channeled over the past 30 years. SRT is one of the most comprehensive and powerful energy healing modalities known to us today.

These classes may also be taken in person at
8 Hay Road, Newton MA, 02459

Reaching Your Potential...

Course Methodology:

1. The curriculum for each part has been broken down into short modules.
2. Each module is covered via online video teleconferencing. This allows for online discussions, power point presentations, use of white board etc.
3. Supervised practice of the SRT techniques is an integral part of the course.
4. Follow up conferences are offered as needed up to a month after the classes to ensure that the students have a level of comfort in using the SRT system.
5. You will be asked to submit assignments recording practical work you do on your own, prior to being certified.

IT Systems requirement:

You will need a computer with high speed internet capabilities, equipped with a camera and microphone. The conferencing software will automatically download when you are invited. This will not cost you anything and is very simple to operate. At present we are using Cisco's Webex video conferencing facility. **Once you register, I will set up a time with you prior to the class to ensure that your computer is compatible.**

You will be able to see and interact with all the class participants.

Pendulum for Dowsing:

SRT depends on dowsing with a pendulum for high level communication. You will need one. If you are accustomed to dowsing, you have an advantage.

If dowsing is new to you, the best option is to find a local source and buy a pendulum. This can be very simple. It is not necessary to have fancy crystals or anything very elaborate. For best results choose one with a slight point. That will make it easier to use. Amazon offers pendulums for sale.
